

RDC

(REMOTE DEPOSIT CAPTURE)

WHAT IS IT?

Remote Deposit Capture is a quick and easy way to scan and digitally capture check images so they can be transmitted for processing.

HOW DOES IT WORK?

With Remote Deposit Capture, you can:

- Make deposits 24/7 from multiple locations. Deposits made prior to cutoff are credited that day.
- View reports and images of processed items.
- Export, download, or extract deposit information.

Once you are logged into Business Online Banking, you'll be able to scan and digitally capture check images and information with the click of a button.

BENEFITS

Save Time & Money: Skip your trip to the bank with our high-tech services. You'll no longer have to wait for banking hours or pay courier fees.

Convenience: Remote Deposit Capture makes it easy to deposit a large volume of checks (and large dollar amounts) right from your home or office.

Security: By remotely depositing your checks, you can reduce your risk of check fraud.

Software Provided By Availa Bank: All Remote Deposit Capture software will be provided by Availa Bank, including a check scanner.
