

WIRE MANAGER

WHAT IS IT?

Wire Manager is a convenient and secure way to transfer funds for your business.

HOW DOES IT WORK?

With Wire Manager, you can:

- Initiate wires electronically.
- Transfer funds to accounts at other financial institutions.
- Track and maintain your transaction history, including payments, receipts, and financial records.

Wire cutoff times are 4:00 CST for domestic and 3:00 CST for international.

BENEFITS

Quick & Efficient: With just a few clicks, you can initiate a wire transfer, reducing the time you spend on paperwork and manual processes. All transactions are processed quickly, ensuring the timely delivery of funds.

Cost Effective: Wire Manager offers discounted wire fees compared to in-person wires at a branch location.

Convenient: Access Wire Manager anywhere, anytime. Whether you're on the go, working from home, or in the office, you can manage your wires when you need to.

Secure: Multiple security measures ensure your transaction is protected. Encryption, multi-factor authentication, and identity verification protocols shield your sensitive information.

Documentation: With Wire Manager, you'll have a record of your transaction history, making it easy to track payments, receipts, and financial records.
